

TANVI JADHAV

Aspiring Data Analyst

Python • SQL • Power BI • Machine Learning

7483810950 • jtanvi926@gmail.com • linkedin.com/in/tanvi-jadhav • github.com/Tanu28-pixel

EDUCATION

Shetty Institute of Technology

B.E in Computer Science Engineering — CGPA: 8.56

Kalaburagi, Karnataka

2022 – 2026

KLE College

Pre-University Course (PUC) — Percentage: 77%

Nipani, Karnataka

2020 – 2022

INTERNSHIP EXPERIENCE

International Institute of Medical Science and Technology Council

Jan 2026 – May 2026

Data Science & Machine Learning Intern

Remote

- Contributed to machine learning and predictive analytics projects using Python, supporting data preparation, feature engineering, and model development activities.
- Collaborated with a 15-member team on data preprocessing, exploratory data analysis, predictive modeling, and visualization tasks.
- Served as Vice President of the internship cohort, coordinating team activities and fostering collaboration among participants.

PROJECTS

HR Analytics Dashboard | *Python, SQL, Excel, Power BI, Tableau*

2026

- Analyzed employee attrition, workforce demographics, overtime trends, and job satisfaction using HR data.
- Performed data cleaning, transformation, and exploratory data analysis using Python and SQL.
- Built interactive Power BI and Tableau dashboards with KPI cards to support workforce insights.

Britannia Business Intelligence Center Dashboard | *Power BI, Excel*

2026

- Analyzed revenue, profitability, inventory, and brand performance to identify business trends.
- Developed an interactive Power BI dashboard with KPI cards, trend analysis, and city-wise visualizations.
- Generated actionable insights on top-performing brands, cities, and inventory performance.

Breast Cancer ML Classification Using Gene Expression Profiles | *Python, XGBoost, SVM, ML*

2026

- Analyzed gene expression datasets using Python to identify patterns associated with cancer diagnosis.
- Performed data preprocessing, feature scaling, and class-balancing to improve model performance.
- Evaluated classification models using SVM and XGBoost and applied SHAP-based feature importance analysis for model interpretability.

TECHNICAL SKILLS

Programming Languages: Python, SQL, Javascript, C, C++

Data Analytics: SQL, Power BI, Tableau, Excel, Statistics

Python Libraries: Pandas, NumPy, Scikit-learn

Machine Learning: Classification, Regression, Feature Engineering, Model Evaluation

Developer Tools: GitHub, VS Code, Jupyter Notebook

CERTIFICATIONS

- Data Analytics Training – Besant Technologies (Python, SQL, Excel, Power BI, Tableau)
- Data Analytics with Python - IBM
- TCS iON Career Edge – Young Professional
- Data Analytics Job Simulation – Deloitte
